To Whom It May Concern

We, ZS Holdings, opened our sixth hotel in February 17, 2017. We are pleased to have had someone such as Gary Ulias, along with his extensive knowledge, be part of the process. Gary and his GUPM Construction Managers came to us highly recommended, with a great deal of preparation and plans before moving forward on the project. Gary and his team were very professional and informed of any issues that arose during construction. We appreciate his forwardness about the construction plans, timeline and budget.

We would recommend Gary and his team to anyone looking for a trustworthy, straight-forward, and diligent construction company to get their project done. They were the right choice for the construction of our newest hotel, and we look forward to working with them in the future.

Yours in hospitality,

Shazma Charania

President
